Save the environment

Sustainability

A continuous journey of improvement

We are leader in sustainable paper packaging with a broad portfolio of solutions focused on source reduction, energy and water conservation, and end of life product planning and management.

Some of our sustainability solutions we bring to our customers include: recycled content plastic and paper products, compostable paper products, renewable substrates, our film recycling program, lower impact substrates such as our paper products, and other industry leading innovations that minimize raw materials while maximizing performance.
